Teaching Learning Process

The University, following NEP 2020, adopted a revised curriculum in September 2023, emphasizing Project-Based and Blended Learning, along with electives from platforms like SWAYAM. Academic governance involves the Academic Council and Board of Studies. Learning avenues include seminars, internships, industry visits, and quizzes. Examinations integrate theory and practicals, aligned with Bloom's Taxonomy, and are conducted by internal and external evaluators with a centralized evaluation system. Results are announced within 12–15 days. The University ensures time-bound exams and continuous internal evaluations. Clear guidelines for question setting, evaluation, and practicals maintain academic rigor.

Curriculum, Teaching Learning Process

The Academic Council, which includes the Vice-Chancellor, deans, directors, heads of departments, professors, and external academicians, oversees curriculum approval based on recommendations from the Board of Studies. The Board includes departmental heads, professors, external experts, and faculty members nominated by the Vice-Chancellor.

The curriculum focuses on Project-Based and Blended Learning, offering elective courses via platforms like SWAYAM and generic electives. Learning is diversified through seminars, workshops, conferences, expert lectures, internships, industry visits, and quizzes, along with classroom instruction. Blended learning methods enhance the teaching-learning process.

Examinations integrate theory and practical assessments, with question papers and evaluations conducted by internal and external evaluators. The University follows a continuous internal evaluation system, with questions aligned to Bloom's Taxonomy to ensure learning outcomes. Clear guidelines govern the setting of papers, invigilation, and evaluation of examinations, which are conducted in a time-bound manner.

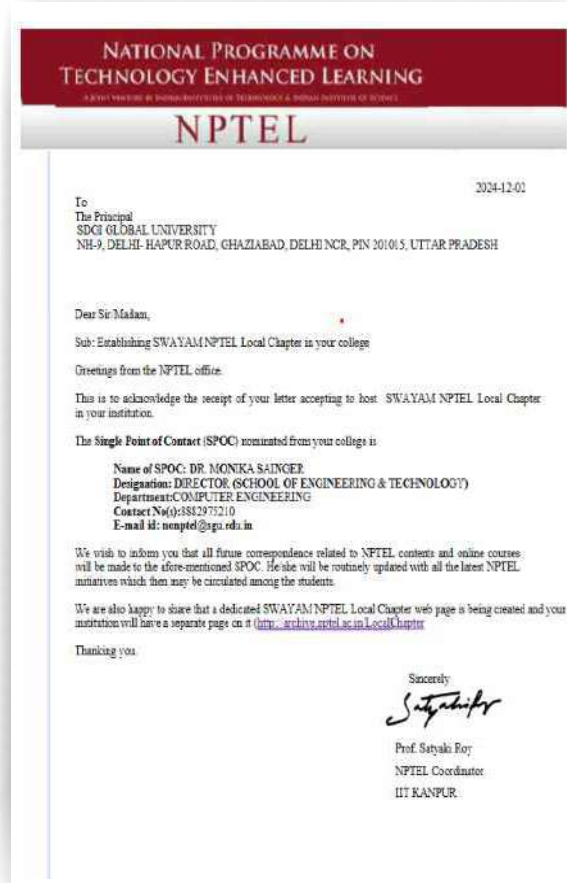

Answer scripts are centrally evaluated under the supervision of the Controller of Examinations. Results are declared within 12–15 days of the last examination date, ensuring efficiency and academic integrity. The University remains committed to rigorous and holistic education.
